It's a brand new day in Kinderland,  
 It's a brand new day in Kinderland,  
 I'm so happy to meet my friends,

## Welcome to “Colours in Symphony,” presented by 187 Kindergarten Two children!

Today’s performance is a musical journey that captures the essence of courage and the pursuit of dreams. Our young graduates are eager to showcase their skills in music, dance, and drama.

Music holds a special place at Kinderland. Through our music-focused curriculum and dedicated Children’s Music Programme, we aim to build not just academic skills like language and focus but also to enhance cognitive and physical development. These experiences also instil values like perseverance and a sense of community—both vital for future schooling and life.

As you enjoy today’s performances, you will notice they are imbued with a variety of colours. This palette reflects our commitment to inclusivity and diversity, ensuring that every child feels valued. Each performance, although unique, blends seamlessly to create a harmonious and unified experience for all to enjoy.

Your children have learned many precious lessons and built meaningful friendships at Kinderland. They have gained invaluable life experiences. Our dedication to teaching and nurturing remains unchanged, as we have done for the past 45 years.

As we celebrate these accomplishments and look forward to promising futures, congratulations to the Kinderland Class of 2023 and their families. We are thrilled you could be a part of this momentous occasion.

# Our MUSICAL JOURNEY

## MARCHING BAND

Music plays an important role in the development of every Kinderland child. Building on the success of our Children's Music Programme, our team, with support from Ms Hiromi Kurimoto, one of Kinderland's external advisors, introduced Singapore's first and only Preschool Marching Band in the 2010s.

Participating in the band offers multiple learning benefits to our children. It enhances their auditory and concentration skills, improves motor coordination, promotes teamwork, and develops spatial awareness and a sense of direction. The band has had the honour of performing at several special events, including World Water Day and Esplanade's Octoburst! in 2019 and 2022.

This year, 50 children from Kindergarten One and Kindergarten Two came together to perform two musical pieces at the annual Kinderland Sports Fiesta.

*Our Marching Band performing in Sports Fiesta 2023*

*Our stage ensemble performance at Kinderland Graduation Concert 2022*

## STAGE ENSEMBLE

Since its inception in 2017, Kinderland's preschool stage ensemble has created more opportunities for our children to showcase their musical talents. Our preschool stage ensemble has participated in events held by Early Childhood Development Agency, People's Association and Esplanade.

*Making its debut, the Colour Guard performance from Kinderland Preschool @ Marine Parade showcased our children's coordinated movements and marched to music, emphasizing their rhythm and musicality*

## COLOUR GUARD

This year marked yet another milestone with our first-ever Colour Guard performance. Performed by children from Kinderland Preschool @ Marine Parade, the Colour Guard made its debut alongside our Marching Band at this year's Sports Fiesta. Colour Guard aims to enhance children's rhythmic skills and coordination, further enriching their learning experience through the medium of music and movement.

# Building Character AND ACADEMIC EXCELLENCE

*Children applying the skills and values gained from the A to Z Programme in real life*

## CHARACTER BUILDING A TO Z PROGRAMME

Introduced this year, the Character Building A to Z Programme is designed for children aged three to six. It aims to develop well-adjusted individuals by instilling strong moral and educational values. The curriculum covers manners, personal and social responsibility, a growth mindset, and mindful problem-solving skills.

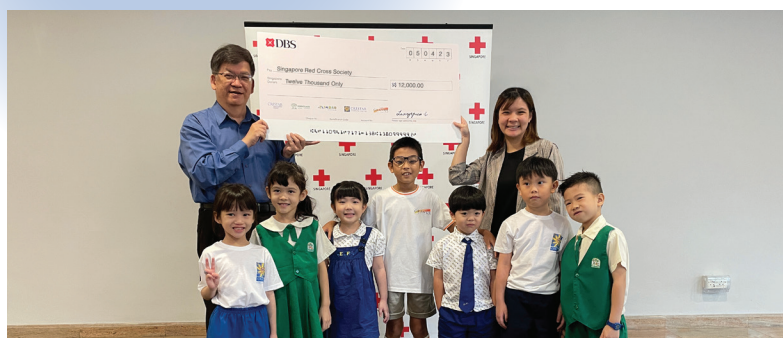

*Our children put their maths learning to practise when sorting bank notes during the fund counting process*

## RED CROSS DONATION

On February 6, 2023, a magnitude 7.8 earthquake struck Türkiye and Syria causing the tragic loss of over 50,000 lives and leaving millions displaced. In response to this crisis, Kinderland supported the Singapore Red Cross (SRC) initiative, with SRC pledging to raise S\$100,000 in aid.

Together with the contributions from our parents, children, and teachers, the Kinderland group managed to raise over S\$12,000 in a three-week period. These funds provided essential relief items such as food, water, and hygiene kits to victims of the earthquake.

Our children also volunteered in the fund counting process at the SRC Singapore Office. Through this hands-on experience, children learned the significant impact each cent can make in supporting those in need. By instilling these values early in life, we aim to inspire our young ones to make a positive impact in their communities and beyond.

# Community OUTREACH

## START SMALL DREAM BIG 2023

This year's Start Small Dream Big (SSDB) theme was "Beary Kind Love." We turned this initiative into a real-world learning experience that focused on kindness, care, and empathy. From May to August, 12 Kinderland centres organised a series of fundraising events, collectively raising more than \$18,000 for our beneficiaries, Lions Befrienders (LB). This is by far the largest amount our centres have raised from this initiative since 2018. But our efforts extend beyond the financial contributions.

Our activities were designed to provide opportunities for children to develop valuable life skills, not just raise funds. These events gave our young learners the opportunity to showcase abilities in problem-solving, mathematical understanding, and creative thinking. By translating classroom lessons into real-world activities, we made learning both engaging and relatable.

*Children from Kinderland Preschool @ Woodlands Mart preparing for SSDB*

*Learning through Action: Children from Kinderland Preschool @ Sunshine Place learn entrepreneurship skills while managing the booth*

*Our child from Kinderland Preschool @ Ministry of Manpower guided the elderly during the arts and crafts sessions*

*Our child from Kinderland Preschool @ Hougang presented a token of appreciation to the elderly*

One memorable feature was the involvement of elderly members from LB in some of our centre's events. This intergenerational bonding went beyond mere social inclusivity. It created opportunities for our children to interact with the elderlies, allowing them to learn empathy and kindness in a profound and personal way.

Participation in SSDB is in line with Kinderland's wider goal of nurturing well-rounded individuals. We are actively building a future where empathy and kindness are cornerstones of character. Since 2018, our partnership with LB has enhanced the well-being of more than 86,000 seniors, along with contributions exceeding \$54,000 in different forms of donations. We are excited about nurturing this valuable partnership in the coming years.

*Our family got together to create beautiful recycled outfits for our mothers!*

### MOTHER'S DAY

At Kinderland, we encourage the participation of parents in the learning journey of their young ones. For Mother's Day 2023, we organised the "Queen's Makeover Challenge", a creative and sustainable activity. It encouraged father-child collaborations to team up and design queen-themed attire for mothers using only recycled materials.

This contest was more than a creative endeavour. It served as an avenue to strengthen family bonds, teach the importance of environmental stewardship, and highlight the value of sustainable practices.

### FATHER'S DAY

Father's Day brought another occasion to celebrate family ties and creative expression. We organised a contest titled "Dad's Twinning Challenge". Its goal was to inspire children to understand and appreciate their father's daily roles in a fun, interactive manner. For this challenge, children were asked to strike poses that best mimicked their dad's style or daily routine.

*Our father got into action with their mini juniors for a twinning post!*

*Parent-and-child challenge at our Sports Fiesta 2023*

### SPORTS DAY

After a three-year hiatus due to the Covid pandemic, Kinderland's Sports Fiesta made a comeback on 7 October 2023! The day was not just about sports and competition. Emphasising the importance of family bonding, the activities mirrored the MOVE IT Active Family Programme from Singapore's Health Promotion Board. Parents eagerly anticipated the parent-child games, cherishing those moments of joy with their little ones.

# Teacher's DEVELOPMENT JOURNEY

*Our educators participated in Zumba and learned relaxation exercises, one way of alleviating stress.*

## PROFESSIONAL DEVELOPMENT DAY 2023

At Kinderland, we prioritise our educators' well-being and professional growth, recognising their importance in delivering quality childhood education.

On July 3, 2023, our educators and staff gathered at the Singapore Expo to reaffirm their teaching roles, focusing on enhancing their mental, emotional, and physical well-being.

Our educators had access to a wide range of workshops, each tailored to address various aspects of their well-being. These sessions equipped them with valuable tools such as relaxation exercises and stress management techniques. They also gained insights into creating a more supportive and collaborative work environment. Through these enriching experiences, our early childhood educators are better positioned to unlock their full potential and provide high-quality education to young minds. One teacher expressed, "I feel happy and excited that after a few years, we can gather together again. I am glad to see my old and new colleagues from my time at Kinderland."

*Ms Zhang Xu from Kinderland Preschool @ Ministry of National Development is dedicated to her teaching and will continuously enhance herself to further contribute to the early childhood sector*

*From the left: Ms May Chin, Ms Zhang Xu and Ms Valerie Gan received their PDP certificate*

## PROFESSIONAL DEVELOPMENT PROGRAMME

Three of our remarkable Principals along with two teachers have successfully been nominated into the Professional Development Programme (PDP). The PDP, a three-year programme, is structured to bolster their professional growth, equipping them with the skills and knowledge to undertake larger roles within our organisation. Beyond skill development, PDP provides an invaluable platform for exchanging innovative ideas, sharing expertise, and networking with peers and industry leaders. This enriches their professional journey and has a wider impact on the early childhood community.

# Cultivating SUSTAINABILITY

## GARDEN-TO-TABLE AT KINDERLAND ACADEMY @ YIO CHU KANG

One of the unique features of Kinderland Academy @ Yio Chu Kang is its outdoor Children's Garden. This space is designed specifically for hands-on, real-world learning experiences. To instil a sense of sustainability, children are introduced to the basics of planting and harvesting fruits and vegetables. They learn how plants grow, what they need to thrive—such as sunlight, water, and soil—and how they eventually produce food for us to eat.

Teachers and children brainstorm together to decide which edible plants to grow. Hence, they have planted a variety of crops like pumpkins, jackfruits, winter melons, as well as kangkung, roselle, and papayas.

Guided by their teachers, the children then use the harvested produce to cook. This initiative not only enriches our children's understanding of sustainability, but also provides them with hands-on experiences that contribute to their overall development.
