## KINDERLAND'S SCHOOL SONG

It's a brand new day in Kinderland,  
It's a brand new day in Kinderland,  
I'm so happy to meet my friends,  
Each and every day in Kinderland  
We make words with A, B, C,  
Fun with numbers 1, 2, 3,  
Singing songs in Do, Re, Mi,  
Kinderland's the place for me!  
Here we learn to love, to share and care,  
Play along with one another too,  
Work together and help ourselves,  
Kinderland's the nicest place to be!

馨乐园是我的欢乐园,  
大家天天欢聚在一起,  
一同游戏一同学习,  
馨乐园里快乐无比,  
横竖撇捺真有趣,  
一二三四五六七八九十  
唱起歌儿 Do Re Mi,  
馨乐园是我的天地,  
馨乐园是我的欢乐园,  
大家天天欢聚在一起,  
一同游戏一同学习,  
馨乐园里快乐无比!

# OUR HEARTIEST CONGRATULATIONS

Welcome to Embrace The New World: Stronger for the Future, a musical presented by 200 graduating Kindergarten Two children from our 2021 cohort.

“When patterns are broken, new worlds emerge.” – Tuli Kupferberg. Changes are a normal part of life and embracing change is an opportunity for continuous renewal and growth. As the world continues to evolve around us, this year’s performances narrate the challenges a post-pandemic world poses and how we are ready and stronger to face the future with our shared experiences.

The playing of melodious tunes on musical instruments to endearing renditions of songs and dances showcases our children’s talents and dedication. Music has always been the essence of Kinderland’s curriculum. Formed since 2010, the Kinderland Marching Band has taken pride as the first and only preschool marching band in Singapore. This year, our performances will include a stellar show by our virtual marching band and virtual instrumental stage ensemble.

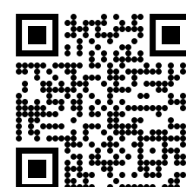

Our unique instrumental stage ensemble demonstrates the children’s abilities to play in harmony. The instruments played include keyboard, tambourine, castanet, claves, triangle and bells, to name a few. The past two years has been unprecedented and your child, together with peers and teachers, soldiered on, proving that even little steps make big impacts when it comes to embracing change and preparing for the future. At their time with Kinderland, your child explored new experiences, lessons and built meaningful friendships and relationships.

Their performances today, a culmination of their learning journey, will make you proud of their achievements. We celebrate their success and congratulate them, as they start a new and exciting journey in primary school.

My heartiest congratulations to the graduating Kinderland Class of 2021, parents and guardians.

**DR CAROL LOY**  
Director of Curriculum &  
Professional Development

# OUR MUSICAL JOURNEY

## Kinderland Preschool Marching Band

Music has always been at the centre of Kinderland's curriculum. Playing in a band aids in developing active listening, focus, motor and coordination skills, heightens spatial awareness and directionality. Despite the Covid-19 endemic, our musical talents proudly upheld the Kinderland Preschool Marching Band tradition since its inaugural performance in 2010.

This year, 42 children from Kindergarten One and Kindergarten Two came together to showcase the second virtual marching band performance. The performance is a culmination of children's hard work and discipline from attending rehearsals that spanned from August to October 2021. Conducted safely in small groups while adhering to safe management measures, children skillfully played their instruments and reproduced neatly choreographed formations while maintaining social distancing.

To watch our 2021 Marching Band performance, refer to page 2 to scan QR code and gain access.

## Kinderland Stage Ensemble

As Kinderland recognises the importance of music in contributing to children's holistic development, Ensemble is an important topic covered in Kinderland's Children's Music Programme. Playing

in an ensemble helps children develop their musicality which includes listening and sense of rhythm, as well as gross motor skills such as eye-hand coordination, discipline and teamwork.

*The stage ensemble playing at ECDA Early Childhood Conference 2019*

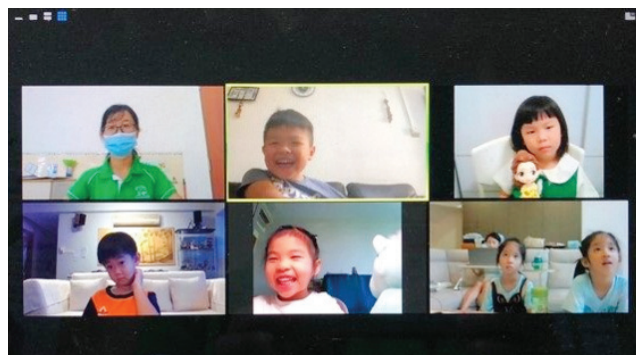

Our children have also had the opportunity and exposure to perform before a large audience. Alongside Kinderland's Preschool Marching Band, Kinderland's Preschool Stage Ensemble first performed publicly in 2016. Both Marching Band and Stage Ensemble have earned recognition and praise for their various benefits. These experiences hone our children's confidence and improve self-esteem.

# ADVANCING WITH TECHNOLOGY

## Blended Learning - a combination of online and physical classes

*Home-based Learning and activities with our Kinderland children*

As Singapore transits to being a Covid-19 resilient nation, Home-based Learning (HBL) became one way to ensure that children can continue to learn at home and have access to quality education. This was made available during the first Phase 2 (Heightened Alert) period from 16 May to 13 June 2021 where work-from-home was the default. While preschools were still opened, some families preferred to keep their children at home to minimize potential exposure when community transmissions spiked.

Home-based activities such as readers, activity sheets and learning kits for hands-on experiments and projects were dispatched to our families as needed. Working on these tasks provided parents and children opportunities to spend meaningful time together. Teachers also checked in daily with our families and provided assistance when required.

## Advocating Healthy Eating

While staying home during the June holidays, Kinderland's children whipped up some healthy and nutritious dishes at home by replicating some of the popular dishes from school. Specially designed by Kinderland's certified Nutritionist for a balanced diet, popular menu items like Braised Minced Chicken and Tomato Stewed Fish with Baby Corn are well-loved and enjoyed at Kinderland all year round! Get cooking with your child by following our instructional videos to enjoy these wholesome and delicious meals together!

To check out these healthy and delicious recipes, refer to page 2 and scan the QR code.

# THINK OUT OF THE BOX

## S.M.A.R.T. THINKER

Embracing digital transformation has allowed our teachers to continue providing online lessons to engage children and their families. In this way, learning is sustained despite the disruptions during the heightened alert phases in Singapore this year.

The S.M.A.R.T. Thinker programme's versatility allows for teaching to be done online or offline or both depending on the need. Carried out by teachers in the classroom or by parents at home, the programme comprises activities with supporting resources to enhance children's learning in **S**cience, **M**aths, **A**rts, **R**eadng & **wR**iting, and **T**echnology.

Teachers guiding the children online on the best ways to interact with the S.M.A.R.T. Thinker theme-box.

The S.M.A.R.T. Thinker theme box consists of materials and guides that help with learning and parent-child bonding.

The resource covers four themes: People and Me, Things and Me, World and Me, and Nature and Me.

These parent-child bonding thematic activities engage families in fun, hands-on experiments to explore the world through science and enjoy solving problems as they create each project. Children also learn many other important skills related to the improvement of their cognitive, interpersonal and motor skills.

Kinderland children having a fun time learning through activities and toys from the S.M.A.R.T. Thinker theme box.

# APPRECIATING A DIVERSE SOCIETY

## Start Small, Dream Big (SSDB) 2021

This year, Kinderland has been awarded the Lion Befrienders Donor Awards (Bronze) for our initiative and involvement in 2019 and 2020. Since 2018, Kinderland has been partnering Lion Befrienders (LB), building the bridge for our children to bring joy and colours to the lives of many lonely elderlies. Embracing empathy through intended learning is one of the keys to nurturing a Kinderland child to be a global citizen with a heart.

Kinderland gave back through our CSR efforts via fund raising activities such as the Kindness Carnival and selling of crafts made by Kinderland children across various centres. The collective efforts from Kinderland saw the collection of over \$40,000 in donation in monetary form and in kind since 2018.

Covid-19 has highlighted and brought forth many challenges for many of us and even more so our senior friends at LB. This year, Kinderland forged a new and personal way in providing friendship and care to the seniors.

Watch our video to witness how our seniors age in grace, love and good cheer.

To watch our  
Lions Befrienders  
and Kinderland  
video, refer to  
page 2 and  
scan the QR  
code.

Kinderland was awarded Lions Befrienders Donor Awards (Bronze) in 2019 and 2020.

Our children from Kinderland Preschool @ Ministry of Manpower with their little booth of toys and crafts for sale at the Little Entrepreneur Project to raise funds for Lions Befrienders (2018).

Our children from Kinderland Preschool @ Choa Chu Kang (Beside Lot One) with the items generously contributed by parents for the gift packs donation (2020)

Handmade cards with love as children from Kinderland Academy @ Yio Chu Kang pen down festive greetings for the seniors.

# OUR TEACHERS, OUR STRENGTH

## Teacher's Professional Development

*Teachers having online zoom training*

Continuing professional development is essential for ensuring that educators broaden their knowledge base and hone their repertoire of teaching skills. With Kinderland International Education's ongoing commitment towards teacher training, two training sessions were held for our educators in July and September 2021.

On 27 July 2021, close to 130 participants from Kinderland centres in Singapore, Malaysia, Indonesia, Cambodia, Vietnam and Bangladesh participated in a "Home-based Gross Motor Activities" virtual training. Mr Gobi Nair, a Principal Consultant for Health Fit Consultants and Director-General of SEA Anti-Doping Organization, presented an interactive session covering topics on growth and development of children, development of motor skills and the pedagogical approaches to movement skills. From the sharing and lesson demonstrations, teachers learnt how best to teach gross motor skills via zoom to children that were homebound.

A virtual sharing on "Interactive Activities for Infants and Toddlers" was conducted in September 2021 by Ms. Hiromi Kurimoto, School Master and Chief Executive Officer of Shirohato Association 2021. 60 educators from Kinderland centres in Singapore, Malaysia and China participated in two insightful sessions where they learned about conducting interactive and exploratory activities for children aged 0-3 years old. These activities included routine care, indoor and outdoor activities from Shirohato Nursery School in Japan.

The sessions offered meaningful opportunities for teachers to refresh themselves with the early years Respectful, Responsive and Reciprocal (3Rs) approach, gather ideas on how teacher-made materials are effective in engaging children in a refreshing manner and the importance of exploration opportunities to match children's developmental milestones.

## Vaccination

As of 30 September 2021, close to 100% of our teachers are vaccinated.

For the well-being of our Kinderland children, most of our teachers across the region are vaccinated to better protect our young charges

so that they can learn and play together in a safer environment. In addition, centres do consciously observe safety and hygiene measures within the premise daily to minimise any possible risk of infection in the current pandemic situation.

# S.T.R.E.A.M. PROJECTS

Kinderland Academy @ Yio Chu Kang, Kinderland Preschool @ Pandan Valley, Kinderland Preschool @ Marine Parade and Kinderland Preschool @ Hougang were involved in this year's S.T.R.E.A.M. Projects. As an extension of their learning, children proposed their own ideas and worked on a project agreed upon by the class. In coming up with ideas for their projects, the Kindergarten Ones explored machines with few or many moving parts and the Kindergarten Twos explored inventions for functionality, and for fun and entertainment. Children worked on their projects from the middle of Term Two through to the end of the June school holidays.

Through S.T.R.E.A.M. (**S**cience, **T**echnology, **R**eadng & **w**Riting, **E**ngineering, **A**rts, **M**athematics), children developed habits to problem solve as independent thinkers. There were many opportunities for children to inquire, explore, enhance their intellectual abilities and apply the knowledge they have gained.

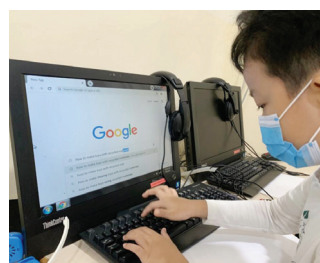

To watch our children's S.T.R.E.A.M. project, refer to page 2 and scan the QR code.

Kinderland Academy @ Yio Chu Kang Kindergarten Two students working on a self made sprinkler.

Kinderland Preschool @ Pandan Valley Kindergarten Two students working on their Water Wall project.

Kinderland Preschool @ Marine Parade Kindergarten Two students using technology to do research recycled materials for toys.

Kinderland Preschool @ Hougang Kindergarten Two students working on assembling and construction of their project - "Canopy Flyer".

## The Great Outdoors

At Kinderland Preschool, we understand the importance and benefits of off-screen activities. We ensure that our children has plenty of opportunities to experience learning and discover new knowledge In the heart of Mother Nature.

At Kinderland Academy @ Yio Chu Kang, our children are blessed with various choices for outdoor activities. This year, our children even got to witness the hatching and growth of young chicks.

Enjoying the ample outdoor space at Kinderland Academy @ Yio Chu Kang

# LET US MAKE THE WORLD A BETTER PLACE

Kinderland Academy @ Yio Chu Kang | 13 December 2021

## PERFORMANCES

**CMP** : *New World Symphony*

**English** : *I Believe I Can Fly*

**Chinese** : 洗洗洗手

The performances narrate the children's efforts to making this world a better place through love and care for one another. The inspiring and motivational songs encourage us not to give up on our dreams and aspirations despite facing obstacles in life.

When patterns are broken, new worlds emerge.  
— Tuli Kupferberg

2021 has been a tumultuous year. The impact of an invisible virus on just about every aspect of our lives has been unprecedented. It has forced each and every one of us to adapt to new ways of working. The performance remind us to live life with an attitude of gratitude and embrace change as an opportunity for continuous renewal and growth.

As we *Embrace The New World* in this new norm, significant adjustments were made to both work-related activities and our own personal spheres. We see light at the end of the tunnel, as our nation come together and move forward to living with COVID-19. However, we must remain vigilant as the global situation remains a cause for concern. During this time, we must keep trying new experiences, new learnings, new habits to live our lives to the fullest.
